*Leader in  
Quality Service*

Nebraska Department of Social Services

---

## Message from the Director

*Mary Dean Harvey*

Fiscal year 1993 will be seen as a turning point for the Nebraska Department of Social Services. The foundations are in place. Major initiatives which in the long run will change the way that the department conducts its business are underway. Some of the principal endeavors include reforming the welfare system, redesigning the child welfare system, laying the groundwork for a new computer system — N-FOCUS (Nebraska Family On-Line Client User System), reorganizing the agency along two tracks — operations and programs, and the agency-wide implementation of the Total Quality Initiative (TQI) — a management process that creates an environment for continuous improvement.

Our mission is to help Nebraskans in need...the poor, the elderly, the sick, the young, the abused, and the neglected. Our vision is to provide our customers with quality service. To realize our mission and goal, we are undertaking fundamental organizational and programmatic changes. The unifying theme of these changes is better customer service. Each change will be tested in time by whether it improves the department's service to its customers.

The social services industry, like other industries, is changing. We can no longer be satisfied to deliver a selection of services and benefits. While there will always be citizens who need public assistance to maintain a decent standard of living, the department will work to empower all of its customers who are able to control their own destiny. After all, self-determination is not only one of the hallmarks of a democratic society, it is also vital to a good life.

*Mary Dean Harvey*

## **ACTIVITIES**

### **Accomplishments:**

- Completed third-party liability computer system.
- Consolidated the issuance of food stamps from some 20 rural locations to a central point in Lincoln.
- Implemented "Case-mix" methodology for reimbursing nursing facilities.
- Developed automated system that produces invoices to drug manufacturers on a quarterly basis.
- Moved offices in Norfolk and Lincoln.

### **Initiatives Under Way:**

- Redesigning the Child Welfare System.
  - Reforming the Welfare System.
  - Contracting with Policy Studies Incorporated to collect Child Support in Douglas County.
  - Developing N-Focus (Nebraska Family On-Line Client User System).
  - Continuing the Information Engineering Projects.
  - Initiating TQI (Total Quality Initiative) management system.
  - Collaborating with other state agencies to implement Good Beginnings Program.
  - Continuing workload studies.
-

## PUBLIC ASSISTANCE AND CHILD SUPPORT

### Aid to Dependent Children Program

The Aid to Dependent Children Program (ADC) provides financial assistance to families with minor dependent children. To be eligible, a child must be deprived of parental support because at least one parent is deceased, disabled, unemployed, underemployed, or, as in the majority of cases, absent from the child's home. In addition, the family must have little or no income. When a family applies for ADC benefits, the child's caretaker (who is usually the mother) must agree to do the following: (1) to provide documentation that her description of the family's situation is true, (2) to participate in the Job Support Program (if appropriate), and (3) to cooperate in child support enforcement efforts (if necessary).

- In an average month during state fiscal year\* 1993, 49,870 persons in 17,239 families received a total of \$66,492,929 in ADC benefits. The average payment per family per month was \$321.43 or \$111.11 per individual.
- The average number of families receiving benefits each month was 2.6 percent higher than in 1992, and the cost of benefits was 1.2 percent higher.
- In FY 1993, 69 percent of the ADC population were children, and their median age was 5 years old.
- In 1993, the ADC payment standard for a family of two was \$293 a month. With 1993 poverty guidelines for a family of two at \$9,430 (or \$785.83 a month), ADC amounted to approximately 37% of the federal poverty level.
- ADC expenditures are supported by both federal and state general funds. The federal match for FY 1993 was approximately 62 percent, and the state share was 38 percent.
- Nebraska's state fiscal year runs from July 1, 1992 to June 30, 1993.

## Job Support Program

The Job Support Program is designed to help ADC recipients find employment through a program of training, education, and work experience coupled with supporting social services. This program exemplifies the Department's commitment to strengthening families by helping them find an opportunity to participate in the labor market. Hopefully, this will enable them to increase their opportunities for independence.

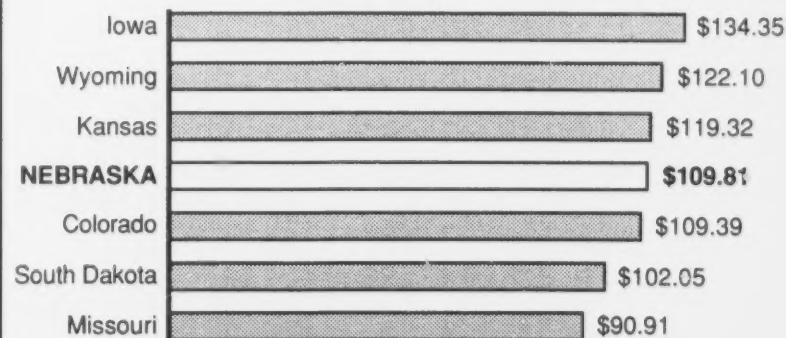

If a family includes two adults who are not disabled, at least one must participate in the Job Support Program. When the family's youngest child is one year old, adults not exempt for another reason must also participate. Persons who are exempt from required participation may volunteer.

The Job Support Program is multifaceted. One of its principal components is education. Any individual under the age of 20 who has not completed a high school education (or its equivalent) and is not exempt from participation in Job Support is required to participate in educational activities.

Another principal component is the job-seeking skills workshop. These workshops generally run ten days. The first five days concentrate on building self-esteem and learning job-search skills. The second five days are spent either preparing to or actually contacting potential employers. If participants do not find employment during the workshop, the program is designed to assist participants continue their search for employment through network centers. Job Support has other components: participants may attend vocational training or up to four years in post-secondary education; or they may work in field experience, work experience, or on-the-job training placements. Job readiness activities are designed to help participants alleviate barriers such as finding adequate child care, building self-esteem and solving other problems which prevent them from becoming self-sufficient.

- In FY 1993, \$3,721,253 in Title IV-F and state general funds were spent on Job Support's education and training components and support services. The match rate ranges from 62 percent federal funds/38 percent state general funds to 90 percent federal funds/10 percent state general funds.
- Title IV-A funds are for ADC families who are either working or in a Job Support Component such as job training or education. For these families, the child care subsidy program will pay all child care expenses. Families who are no longer eligible for ADC payments because income gained from employment exceeds the limit, may receive transitional child care. Transitional child care is provided for up to 12 months on basis of a sliding fee scale under which the amount paid by a family is based on their income. (See child care section for further discussion).
- Financing for this program comes from Title IV-F of the Social Security Act and matching state funds.

**AVERAGE PAYMENT PER ADC RECIPIENT  
IN NEBRASKA AND SURROUNDING STATES  
June 1993**

## Child Support Enforcement Program

The Child Support Enforcement Program is important in helping families become and remain independent. If absent parents (usually fathers) were paying their court-ordered child support, and if, in those cases where there is no court order, court orders were secured and enforced, a significant number of families would no longer rely on public assistance.

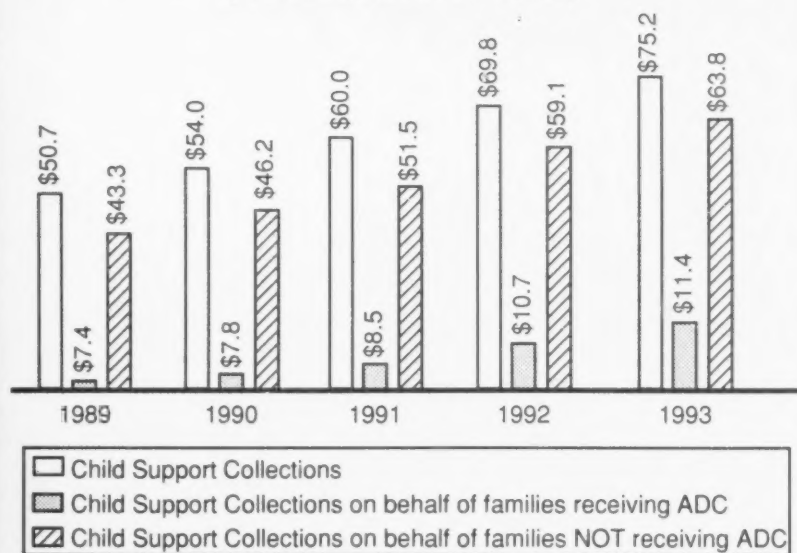

The Department, through its own staff and contractual arrangements with county attorneys and clerks of the district courts, continues its efforts to obtain and enforce child support court orders.

When a family applies for ADC, the mother (or other caretaker) must agree to assign any court-ordered child support to the state. The parent (caretaker) must also agree to cooperate with the Department in determining the paternity of the children, locating absent parent(s), and obtaining court orders for support. Child Support collections are used to offset ADC expenditures.

The Department has developed a variety of means for collecting delinquent child support. The Department can intercept state and federal income tax refunds and unemployment insurance benefits, and it requires employers to withhold a portion of an absent parent's wages to pay delinquent support.

The full range of Child Support Enforcement services is also available to families not receiving ADC. By assisting them, it is hoped the program will help such families avoid becoming public assistance recipients.

**TOTAL CHILD SUPPORT COLLECTIONS ON BEHALF OF FAMILIES RECEIVING ADC AND FAMILIES NOT RECEIVING ADC (COLLECTIONS IN MILLIONS)**

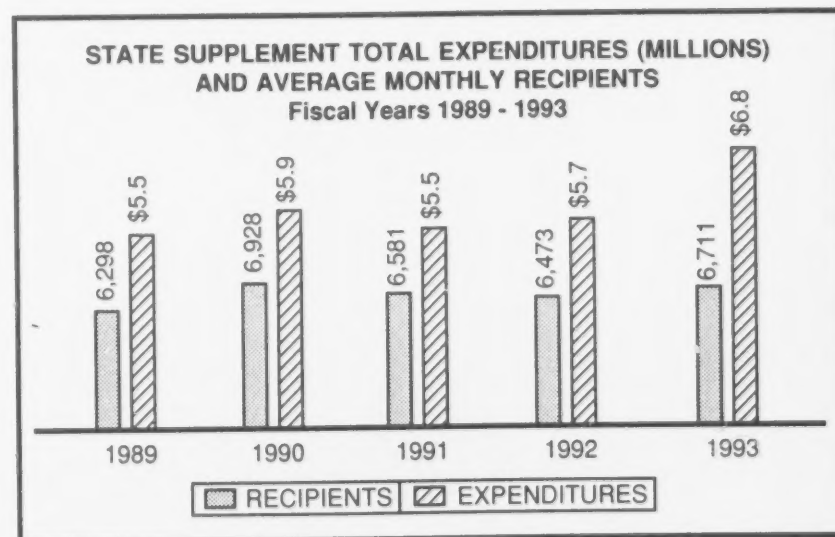

- During FFY 1993, \$75,244,278 in child support payments were collected. \$11,444,651 was collected on behalf of families receiving ADC, and \$63,799,627 was collected on behalf of non-ADC families. This is a 7.5 percent and 7.9 percent increase, respectively over FFY 1992.
- As of September 30, 1993, child support enforcement served 109,977 children (under 18). This figure includes both ADC and non-ADC.

## STATE SUPPLEMENT TO SSI

Families with dependent children are not the only ones to receive cash assistance. State Supplement funds money payments to aged, blind, and physically or mentally disabled clients as a supplement to federal assistance and other income. This program is intended to provide low-income individuals with sufficient income to meet their basic needs.

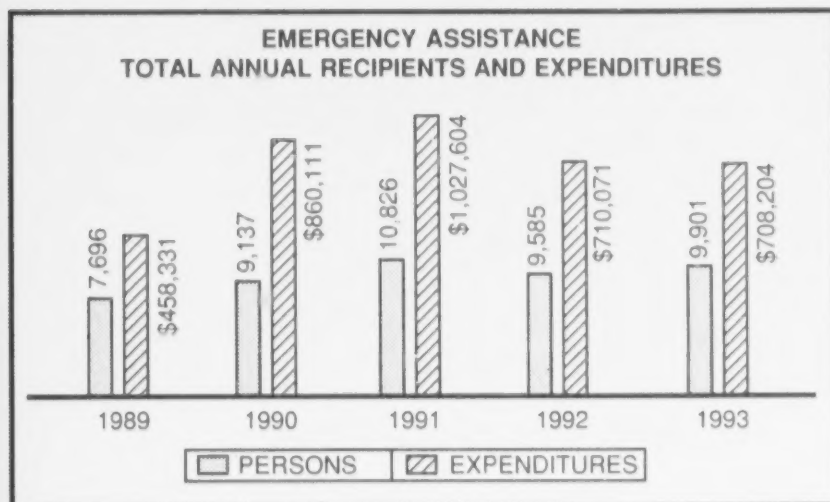

The primary source of cash assistance for these individuals is Supplemental Security Income (SSI), which is a federal program administered by the Social Security Administration. The Nebraska standard of need (the amount necessary for subsistence) was higher than the federal standard at the time SSI was implemented, and Nebraska continues to supplement SSI benefits by using state funds. The State Supplement to SSI is administered by the Department of Social Services.

- Total State Supplement payments for FY 1993 were \$6,819,172, a 19.1 percent increase from the previous year. An average of 6,711 cases per month received an average of \$84.68 per month. This was a 3.7 percent increase in average caseload, and a 14.9 percent increase in average payment. The increases for this program are tied to cost of living increases in Social Security.
- In FY 1993, the monthly standard of need was \$287 (unchanged from FY 1992), plus a housing allowance of up to \$175 (up from \$165 in FY 1992) for one person.

## OTHER CASH ASSISTANCE PROGRAMS

There are three other cash assistance programs designed to help those with specific needs.

### Emergency Assistance

This program is designed to provide financial and medical assistance to needy families who have at least one minor child in the home and who are threatened by unforeseen crises such as shutoff notices from utility companies, imminent eviction from the family home, or lack of food. Emergency Assistance provides help through such means as grocery vouchers and direct payments to landlords or utility companies rather than cash.

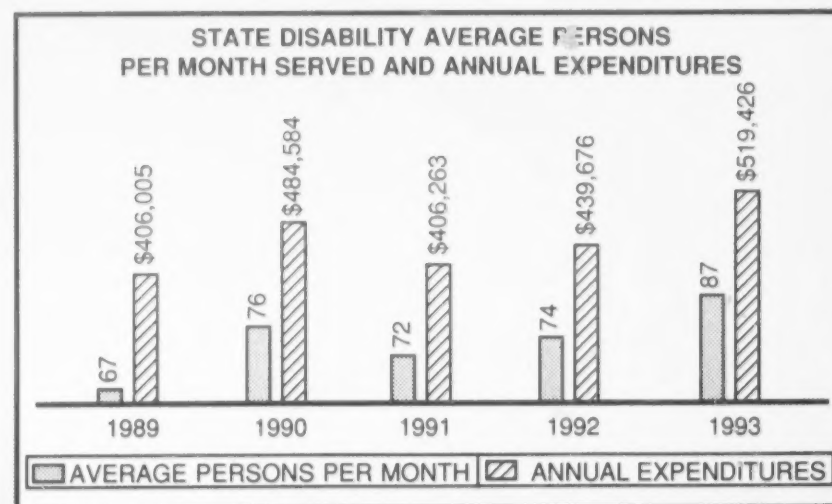

This program can be utilized only if no other resources are available, and it can be used by a family only once in a 12-month period.

- In FY 1993, 9,901 persons received assistance totaling \$708,204, a 3.3 percent increase in persons and a 0.3 percent decrease in expenditures from last year.
- Emergency Assistance is funded with state and federal funds.

### State Disability

State Disability is a program designed to meet the subsistence needs of those who have a temporary disability. This program provides cash (and medical assistance) to persons whose physical or mental disability is expected to last from 6 to 12 months. (Social Security disability benefits cover those whose disability will last at least 12 months.)

- An average 87 persons per month received State Disability payments averaging \$497.53 per person. The total amount spent on cash benefits during FY 1993 was \$519,426, a 18.1 percent increase from fiscal year 1992.
- This program is entirely funded from the state general fund.

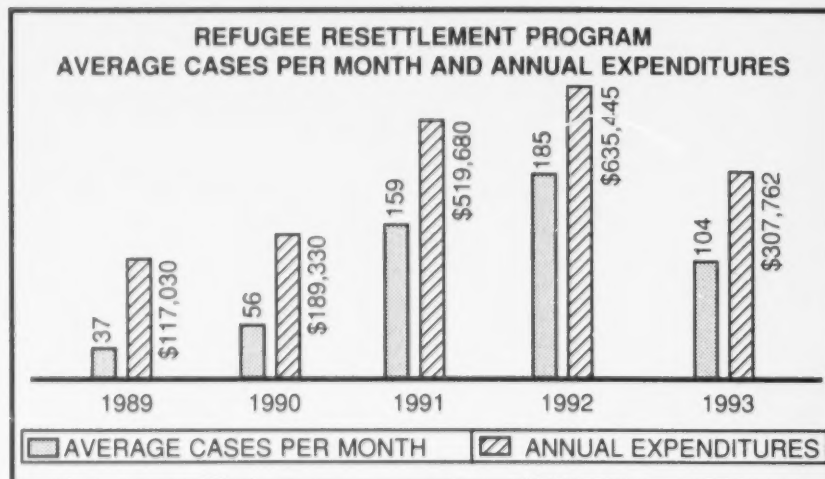

## Refugee Resettlement Program

This program provides assistance to refugees who have come to the United States and who are in need of help, but who are not eligible for any other type of assistance program. Refugees are eligible for this program for a period of eight months beginning with their date of entry into the United States. It is hoped this assistance will allow refugees the time either to learn or to improve their English language skills and to participate in either schooling or training to prepare them for employment.

- In FY 1993, maintenance expenditures of \$307,762 were spent on an average of 104 cases per month. This is a 43.7 percent decrease in cases served, and a 51.6 percent decrease in monies spent from FY 1992.
- This is a federally funded program.

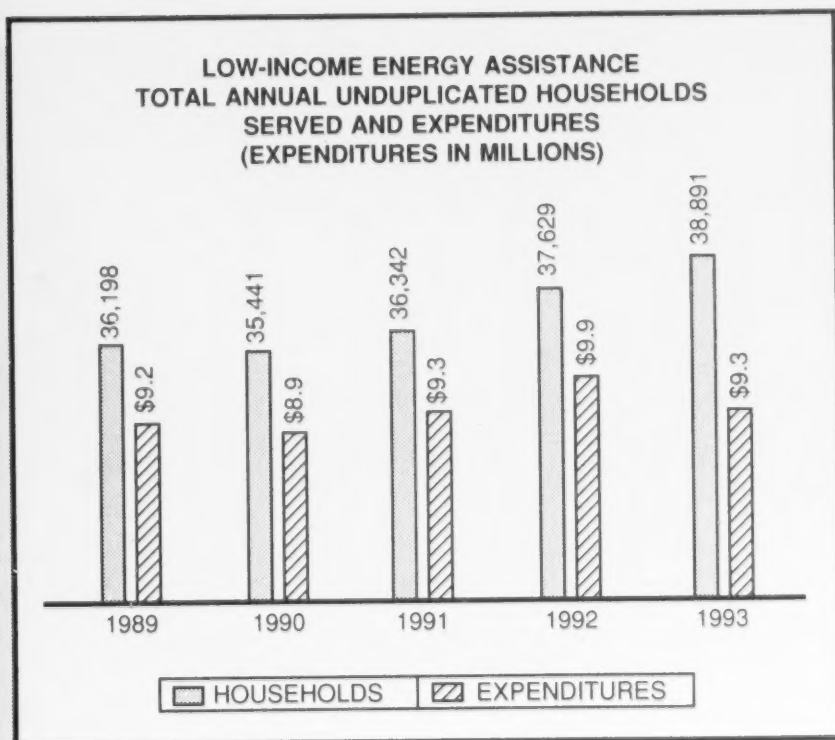

Each of these three programs (Emergency Assistance, State Disability, Refugee Resettlement) provides medical assistance in addition to cash payments. The statistics on the medical portions of these programs will be reflected in the Medical Assistance section of this report.

## LOW-INCOME ENERGY ASSISTANCE

This program provides assistance to help households with the costs of home energy. Heating assistance is available for any household meeting the program's income and resource guidelines. Cooling assistance is limited to households that have a member who either is at least 70 years of age or has a medical condition that requires air conditioning and meets the income and resource limits.

Also, this program provides funding for home weatherization projects administered through the Nebraska Energy Office.

- From October 1, 1992 through September 30, 1993 (the federal energy year), \$8,624,301 in heating payments were made to 31,891 households. This is a 5.9 percent decrease in expenditures and a 3.3 percent increase in households served over the previous federal energy year. As of September 30, 1993, \$632,631 in cooling payments were distributed to 6,997 households. This is a 10.7 percent decrease in monies spent and a 4.4 percent decrease in households served compared to the previous year.
- Of the households receiving heating assistance, 4,292 included at least one elderly person and 6,053 included at least one person with a disability. This is a decrease of 2.7 percent for elderly households and an increase of 11.1 percent for disabled households compared to the previous year.
- Of the households receiving cooling assistance, 4,428 included an elderly person and 1,500 a person with a disability. This is a decrease of 5.2 percent for elderly households and an increase of 1.6 percent for disabled households compared to the previous year. (Eligibility for cooling payments requires a documented medical need.)
- While administered by the state, funding for this program comes from federal block grant funds.

## FOOD PROGRAMS

### Food Stamps

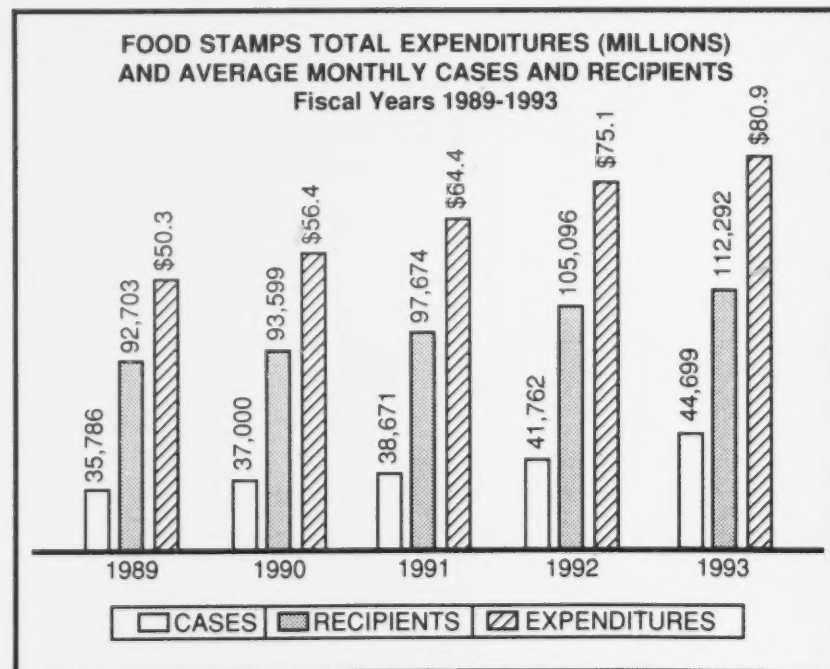

The Food Stamp Program is designed to increase the purchasing power of low-income households by providing them with coupons redeemable for food at retail outlets. These coupons allow the participating household to prepare nutritionally adequate meals. Also, this program supports agriculture by increasing the sale of food products.

Eligibility for participation in this program is determined primarily through federal criteria established in three broad categories: income, assets, and work requirements. All of these criteria must be satisfied to be eligible to participate.

Additional limitations on participation relate to noncitizens, aliens, strikers, college students, and those who voluntarily quit their jobs.

At the federal level, the program is administered by the U.S. Department of Agriculture's Food and Nutrition Service. At the state level, the Food Stamp Program is administered by the Department of Social Services.

- In an average month during FY 1993, 112,292 persons in 44,699 households received Food Stamps. This included 14,525 households in which all members received ADC and 30,174 other households not receiving ADC. The number of participating households was 7.0 percent higher than last year, and the number of persons was 6.8 percent higher. The total value of Food Stamps for the year was \$80,904,769, a 7.8 percent increase over last year, with the average value per household of \$150.83 per month, a 0.7 percent increase over FY 1992.
- Food stamps are purchased with federal funds, and the cost of administering the Food Stamp Program is split: 50 percent state general funds and 50 percent federal funds.

## Food Distribution Program

The Food Distribution Program is the primary commodities distribution program operated by the State of Nebraska. The U.S. Department of Agriculture purchases various foods for this program with three goals: remove surplus agricultural products from the market, provide nutritional foods to program participants, and support commodities' prices.

- In FY 1993, food was distributed for daily meal service to 195,016 children in child nutrition programs (primarily school hot lunches) and 10,718 persons in institutions. This represents an increase of 8.6 percent in children served, and 0.2 percent decrease in persons in institutions served over 1992. A total of 10,356,356 pounds of food was distributed to the recipient agencies at a cost of \$715,781 (6.9 cents per pound of food) for warehouse and transportation charges.
- There is no cost to the state for the food itself and the storage and transportation is paid from a revolving fund which is funded by the program recipients. The cost of administration of this program is paid from state general funds, which were supplemented by a federal grant of \$50,056 in 1993.

## Special Commodity Distribution Program

Another program that assists low-income families and individuals with a nutritional, low-cost diet is the Special Commodity Distribution Program. The U.S. Department of Agriculture purchases certain surplus commodities through price support programs and designates them for distribution to low-income families and individuals through food banks, pantries, soup kitchens, and mass distribution. Mass distribution sites are set up throughout the state, and volunteers coordinate the distribution of the surplus commodities.

To be eligible for this program, the household's income must be less than 150 percent of the poverty level. Eligibility requirements for this program are less stringent than for most programs.

- An average 37,852 households were served each quarter in FY 1993, a decrease of 11.9 percent from 1992. Also, an estimated average 72,651 meals were served in soup kitchens each quarter from January, 1992 to June, 1993. The products distributed during FY 1993 are as follows:

The administrative costs for this program were funded by \$188,100 from a federal grant. Additional funding comes from the Community Services Block Grant's discretionary fund.

### SPECIAL COMMODITY DISTRIBUTION PROGRAM

| <u>Commodity</u>          | <u>Quantity</u> | <u>Pounds</u>    | <u>Dollar Value</u>   |

## MEDICAL ASSISTANCE

### Medicaid - Population

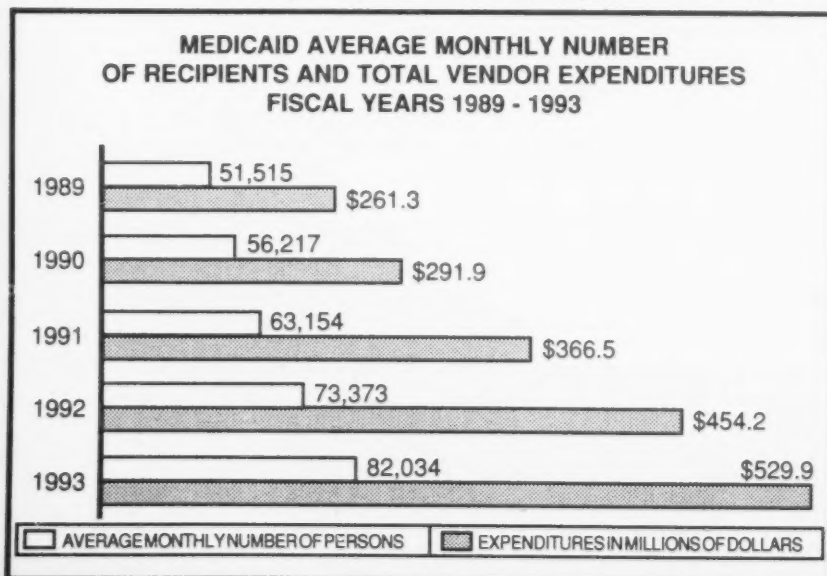

The Medicaid Program is designed to provide coverage to children within families, individuals, and families receiving cash assistance through ADC, SSI, or the State Supplement Program. Also, people whose incomes are sufficient to cover their living expenses except for medical care may receive Medicaid coverage if they meet the eligibility criteria. In addition, children with special health care needs are covered by Medicaid waivers which provide home and community-based services and prevent institutionalization.

Also, the State of Nebraska is required to cover several additional groups of eligibles under the Medicaid program. They are as follows:

- In FY 1990, the Medicaid Program implemented coverage of chemical dependency and other services for Medicaid-eligible persons under 21 as a result of a federal expansion of the Early and Periodic Screening, Diagnosis, and Treatment Program, which is known in Nebraska as HEALTHCHECK.
- Pregnant women, and children under age six, with income at or below 133 percent of the federal poverty level are covered by Medicaid. Also, six and

seven-year-olds are covered if their income is under 100% of the federal poverty level. (Effective 4/1/90) (Effective 9/30/93 - ten-year-olds)

- Former ADC grant recipients, who are now employed but with income less than 185 percent of the federal poverty level, are eligible for one year following ineligibility for cash assistance. (Effective 4/1/90)

### MEDICAID NET EXPENDITURES

Fiscal Years 1992-1993

| EXPENDITURES                           | FISCAL YEAR 1992     | FISCAL YEAR 1993     |

| <b>TOTAL REFUNDS</b>                   | <b>23,976,656</b>    | <b>21,259,541</b>    |
| <b>NET EXPENDITURES</b>                | <b>\$444,848,438</b> | <b>\$529,816,869</b> |

\* Refunds applying to payments prior to July 1 are included in vendor payments total and do not reduce FY payments. See Refunds and Cancellations line for countable refunds that offset program payments.

\*\* For the Department of Public Institutions share of certain services.

\*\*\* The following payments are included here but are not reported on other vendor expenditure tables:

Payments for Aged and Disabled Waiver services and Children's Mental Retardation Waiver Services of \$2,589,727 for FY92 and \$3,633,201 for FY93.

\*\*\*\* Includes Medical Transportation payments of \$1,546,739 for FY92 and \$1,739,782 for FY93.

All Medicaid information presented in tables and charts in this publication represents Medicaid direct vendor expenditures during the year unless otherwise noted. Medicaid direct vendor expenditures are all Medicaid expenditures except retroactive adjustments to hospitals and nursing homes, Medicare premium payments, direct voucher payments, utilization review contract payments, certain payments, for home and community-based waiver services and amount recovered from refunds and cancellations. All information covers payments made during the year, rather than actual services provided during that period.

- Aged or persons who are blind or disabled individuals with net income at or below 100 percent of the federal poverty level are eligible. (Effective 1/1/91)
- Certain married couples are covered at higher income and resource levels if one spouse requires institutionalization or waiver services. (Effective 10/1/89)
- Working individuals with disabilities who have lost their Social Security benefits because of employment and, thus, their Medicare eligibility may be eligible for Medicaid to pay their Part A Medicare premiums. (Effective 7/1/90)

Whereas in FY 1980, 4.5 percent of all Nebraskans were eligible for Medicaid in an average month, in FY 1993, 8.5 percent were covered by Medicaid.

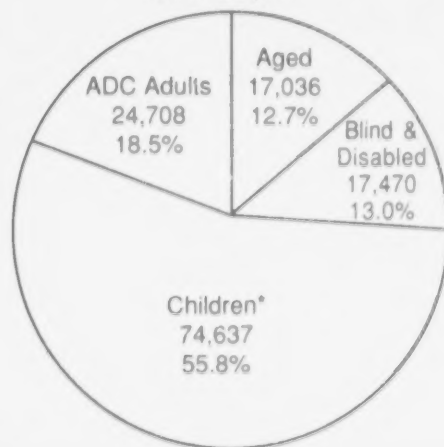

#### - Services

Inpatient and outpatient hospital services, visits to physicians, prescription drugs, dental, eye, and nursing home care are among the wide range of medical services covered under the Medicaid Program. Medicaid is the most

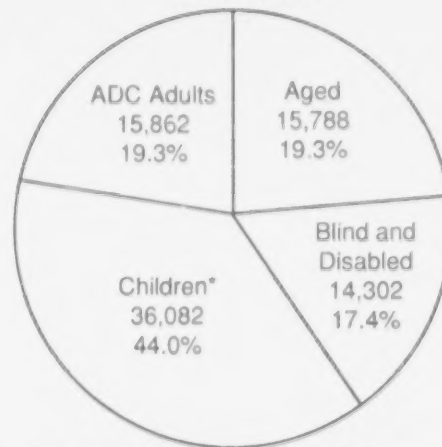

costly program administered by the Department of Social Services, and the most costly item in the Medicaid budget is nursing home care for the elderly and persons with disabilities. It comprises over one-third of the Medicaid Program's total cost.

- In FY 1993, the Medicaid Program made direct payments to health care providers totaling \$529,937,937, a 16.7 percent increase over fiscal year 1992. These payments were made on behalf of an average of 82,034 persons each month of this year, compared to 73,373 last year. This is an increase of 11.8 percent.
- Nursing home services and inpatient hospital services accounted for 38.8 percent and 22.0 percent, respectively, of the total dollars paid directly to health care providers. The most frequently used services were physicians' services and prescription drugs. They were used by an average of 45,079 and 51,424 persons, respectively, each month.
- Medicaid was funded on the basis of an approximate 62 percent federal and 38 percent state match.

Vendor Expenditures: \$529,937,937

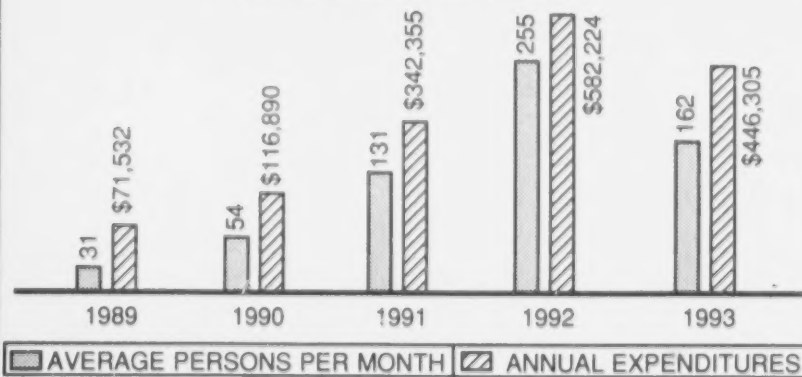

## Other Medical Assistance Programs

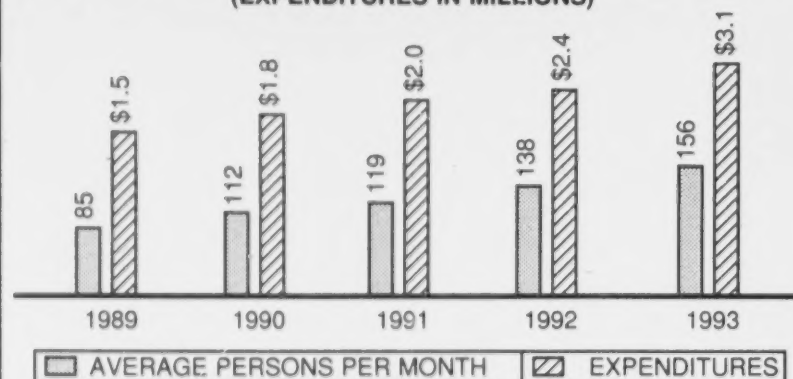

Two other medical programs provided medical assistance to specified groups of people. The range of services offered is the same as those provided by Medicaid.

- State Disability provides medical services to persons with a disability expected to last at least 6 months, but less than 12 months. In FY 1993, a total of \$3,125,788 in state funds was spent for medical services for an average of 156 persons per month. Expenditures increased 28.6 percent from fiscal year 1992, and the number of persons served increased 13.0 percent.
- This program is funded by the state general fund.
- The Refugee Resettlement Program spent a total of \$446,305 in federal funds in FY 1993 to buy medical services for an average 162 persons per month. This compares to expenditures of \$582,224 for a monthly average 255 persons last year. Expenditures increased by 23.3 percent, and the persons served decreased by 36.5 percent.
- This is a federally funded program.

**REFUGEE RESETTLEMENT PROGRAM: MEDICAL SERVICES**

## Medically Handicapped Children's Program

Children with a disabling or potentially disabling condition may receive medical support services through the Medically Handicapped Children's Program (MHCP). While the eligibility criteria for this program are different from the Medicaid Program, the families of the children who wish to use this program must have low incomes before they qualify for services. (Many children qualify for both programs.)

An important feature of this program is its traveling clinics. Periodically, medical specialists travel across the state to offer their expertise to children with disabilities who qualify. Many volunteers, especially the Nebraska Elks Association, help with these clinics.

- Expenditures for the year totaled \$1,511,200, a decrease of 8.1 percent from last year. The SSI-Disabled Program expenditures were \$479,524, an increase of 58.7 percent from last year. These expenditures are not included in the Medically Handicapped Children's Program expenditures total.

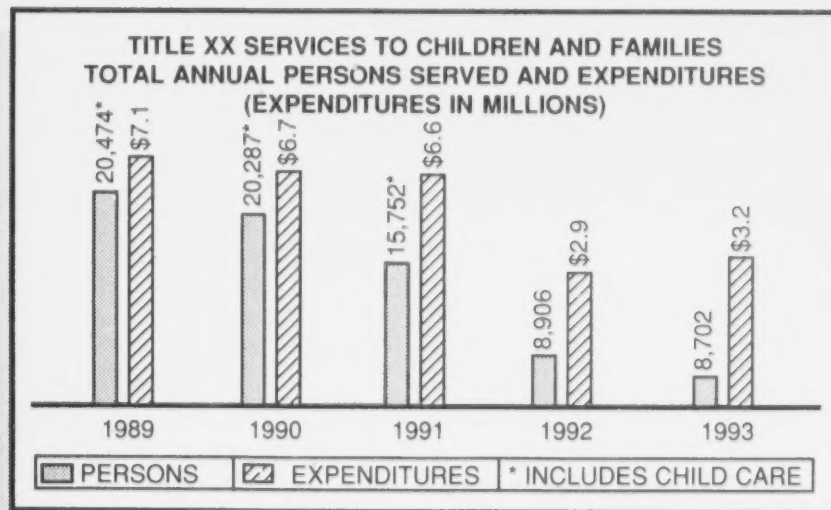

## SERVICES TO FAMILIES AND CHILDREN

### Title XX Philosophy

Title XX of the Social Security Act provides for services that are designed to assist clients attain or maintain the capability for self-support, self-care, and personal independence.

The Department has developed a network of services that can be purchased from individual providers statewide. Title XX is built on the premise that local social service workers can identify needs and develop community resources to meet those needs. Through the Title XX Program, the Department contracts with individual and agency providers to serve eligible clients.

These services are funded by a federal block grant which is supplemented by state funds.

### Title XX Services to Families

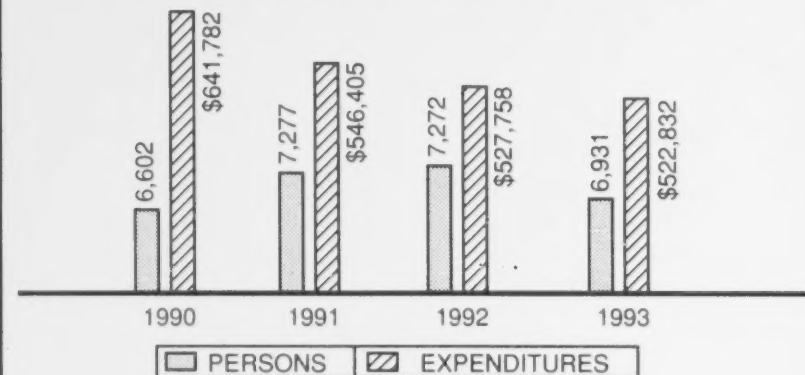

Title XX services (homemaker, family support, and transportation) are designed to help low-income families achieve and maintain financial independence and a healthy home environment. These supportive services are available to families receiving ADC, families well below the poverty level, and families, where, regardless of their income, child abuse and/or neglect have occurred.

- In FY 1993, Title XX services to children and families were provided to 8,702 persons at a cost of \$3,174,394. This is a decrease of 2.3 percent in persons and an increase of 11.2 percent in expenditures from FY 1992.

Transportation services are provided to take family members to and from child care, health care, and community services. Also, these services are available to families of state wards and families involved in the child protection system to receive services related to strengthen the family.

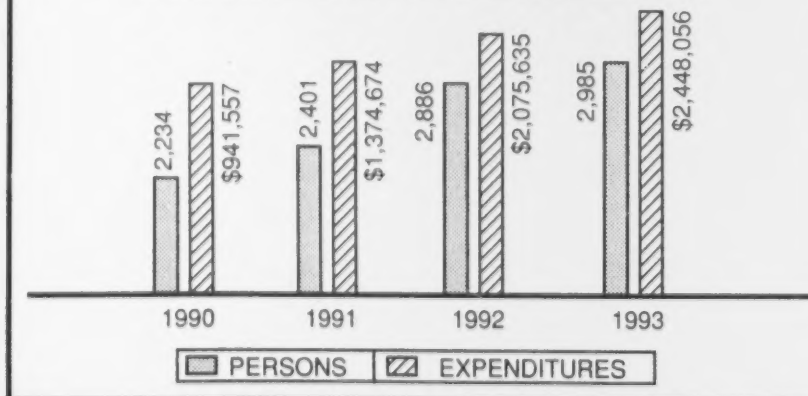

- Transportation services were provided to 6,931 persons in FY 1993 at a cost of \$522,832. This is a decrease of 4.7 percent in persons and a decrease of 0.9 percent in expenditures over FY 1992.

#### TITLE XX TRANSPORTATION SERVICES TOTAL ANNUAL PERSONS AND EXPENDITURES

Homemaker services, for which the Department contracts with private providers, offers instruction and assistance in a variety of ways. Often family problems can be caused or made worse because the adults in the family lack the skills necessary to manage a household. This program is designed to provide training in the following skills: household management skills such as purchasing and budgeting, care and supervision of children, food preparation, personal care and hygiene, and how to obtain proper medical care.

#### TITLE XX HOMEMAKER SERVICES TOTAL ANNUAL PERSONS AND EXPENDITURES

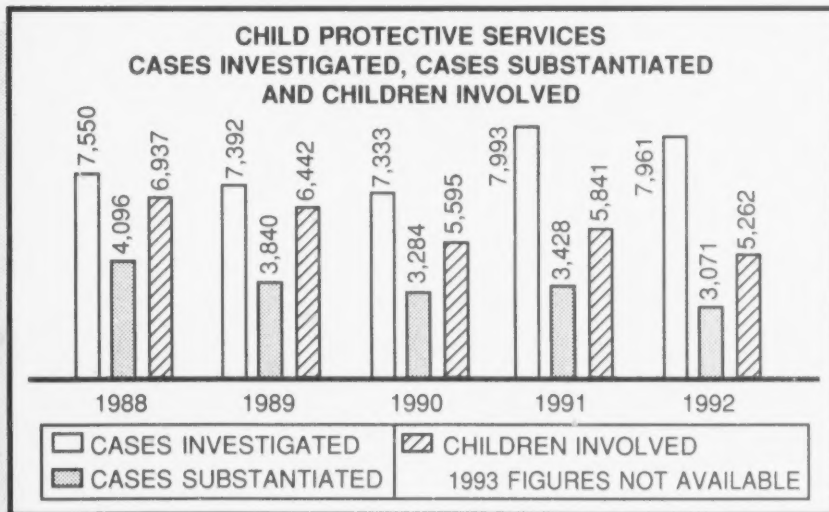

Family Support, a more intensive form of homemaker services, is available to families of Department wards, families involved in the child protective system, and to families where the parents are minors. The Family Support Services stress the development of decision-making and relationship-building skills. This service is one of the principal components of the Department's efforts to prevent the placement of children outside of the home and to reunite families with children already placed outside the home.

- Homemaker services, which includes Family Support services, were purchased for 2,985 persons in FY 1993 at a cost of \$2,448,056. Increases were 3.4 percent and 17.9 percent, respectively, over the last fiscal year. The increase in expenditures was caused primarily by increased use of Family Support providers.

## Child Protective Services to Families and Children

The services of this program are offered to families where suspected child maltreatment has been reported. When the health or welfare of the children is endangered by the actions of the parents or other adults responsible for the care of the children, the Department conducts an assessment.

During the assessment process, a child protective services worker determines whether maltreatment has occurred and the likelihood that maltreatment will occur in the future. If the worker identifies the presence or risk of maltreatment, a further assessment of the family is completed to determine the origin and cause of the risk factors. A case plan is then developed with the assistance of the family. The plan specifies the activities that the family will participate in to address and correct or alleviate the identified risk factors.

The aim of the worker's involvement with the family is to provide services directed toward ensuring the safety of the child while strengthening and preserving the family unit. In situations where there is a high risk of serious harm to the child and the child's safety cannot be ensured through available services, the worker may recommend to the law enforcement authorities and the court that the child be removed temporarily from the home for the child's protection. Prior to the removal of a child from the home, every effort is made to arrange services that adequately address the safety concerns so that the child can remain in the home. If a child is removed from the home, services are provided to address the family's problems so that the child may return to the home as soon as possible.

- In calendar year 1992, 7,961 cases of suspected child maltreatment were investigated. Of these cases, 3,071 cases were substantiated, involving 5,262 children.

## Home-Based Services

Preventing out-of-home placement and reunifying families when possible are the primary child welfare objectives for the agency. In addition to the other services for families, this program provides intensive therapy to an entire family. Therapists help a family strengthen its familial bonds and its ties to the community in which it resides. In general, the goal of the therapists is to assist families in overcoming whatever barriers could prevent the family from continuing to live together or from being reunited. The eligibility criteria for the services of this program are as follows: at least one child must be a state ward; there must be an active child protection service case; or the family has adopted a child through the Department, and there is an imminent risk to the adopted child of out-of-home placement.

The Department presently has fourteen family therapists on staff, and it contracts with private providers for additional services throughout the state.

## Out-of-Home Services for State Wards

A child can become a state ward through adjudication of a court, by voluntary relinquishment by the parents, or, for a brief time, by voluntary placement by the parents. Also, a child can become a state ward because he/she is a status offender. (A status offender is a minor whose actions, for example, truancy or ungovernable behavior, would not be illegal if he or she were 18 years of age or older.)

Out-of-home care is 24-hour substitute care for children and youth until they can be returned to their families, placed in adoptive homes, receive a legal guardian, or reach the age of majority. It includes the care provided by relatives, foster homes, group homes, institutional settings, and independent living arrangements.

When appropriate to their needs, the Department attempts to place children/youth in the most family-like setting possible and as close to their home community as feasible. Typically, out-of-home care consists of placement in a foster care home.

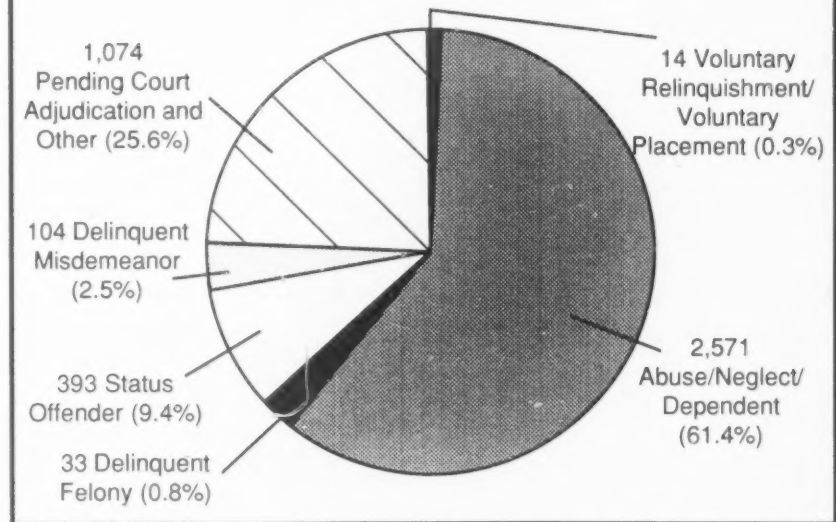

The goals of out-of-home services are: to prevent and/or remedy neglect, abuse, or exploitation; where family rights are intact, to support the biological family and work for family reunification; and, if parental rights are terminated, to secure permanent families through adoption, or in some cases, through legal guardianship by a family. When reunification is the plan, a variety of services can be provided to the family, including regular visits/contacts with the child, case management, counseling, and/or parent education.

Out-of-home care services are available to wards of the Department and their families regardless of income. The services provided include: family therapy (see "Home-Based Services"); family support services; case management (family assessment, development of case plan and service agreements, appropriate placement of children, and periodic review and reassessment of case plan); supervision and services for children in placement; and, if in the best interest of the child, initiation of action to terminate parental rights.

### ADJUDICATION STATUS OF CHILDREN RECEIVING SERVICES PAID FOR BY THE DEPARTMENT

June 30, 1993

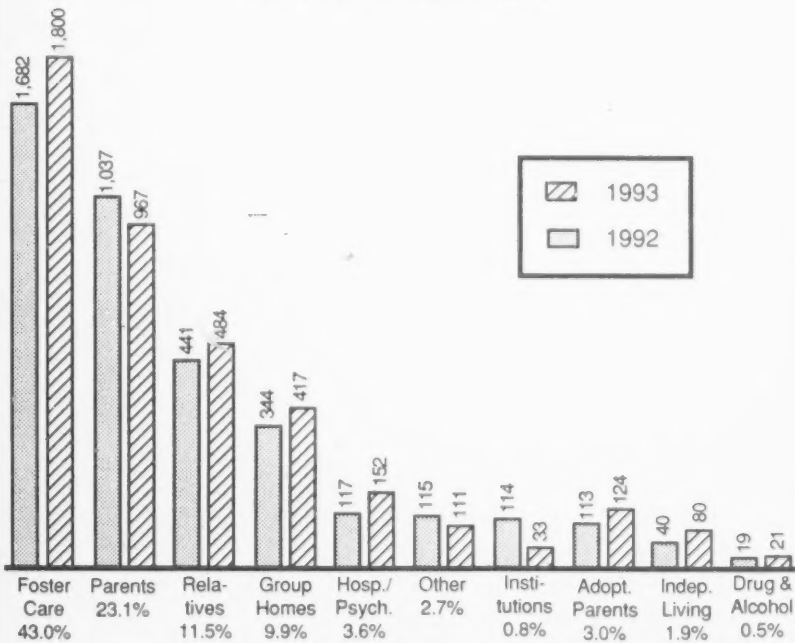

Total = 4,189

The bar graph below shows the living arrangements of Nebraska's state wards as of June 30, 1993.

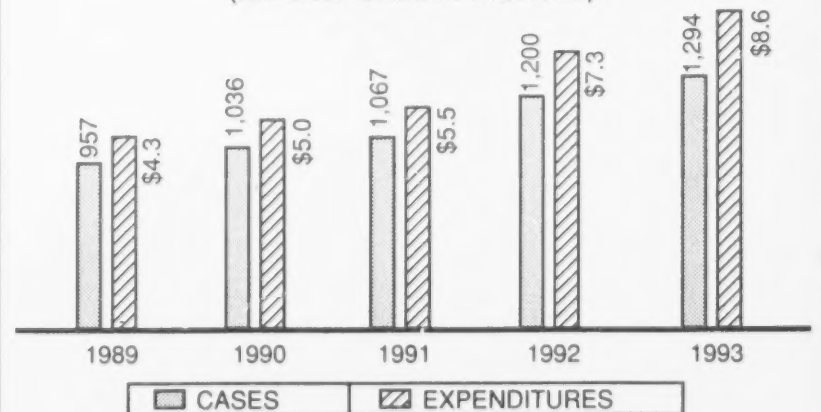

**LIVING ARRANGEMENTS OF CHILDREN  
RECEIVING SERVICES  
PAID FOR BY THE DEPARTMENT  
June 30, 1992 and June 30, 1993**

June 30, 1993 Total: 4,189  
June 30, 1992 Total: 4,022

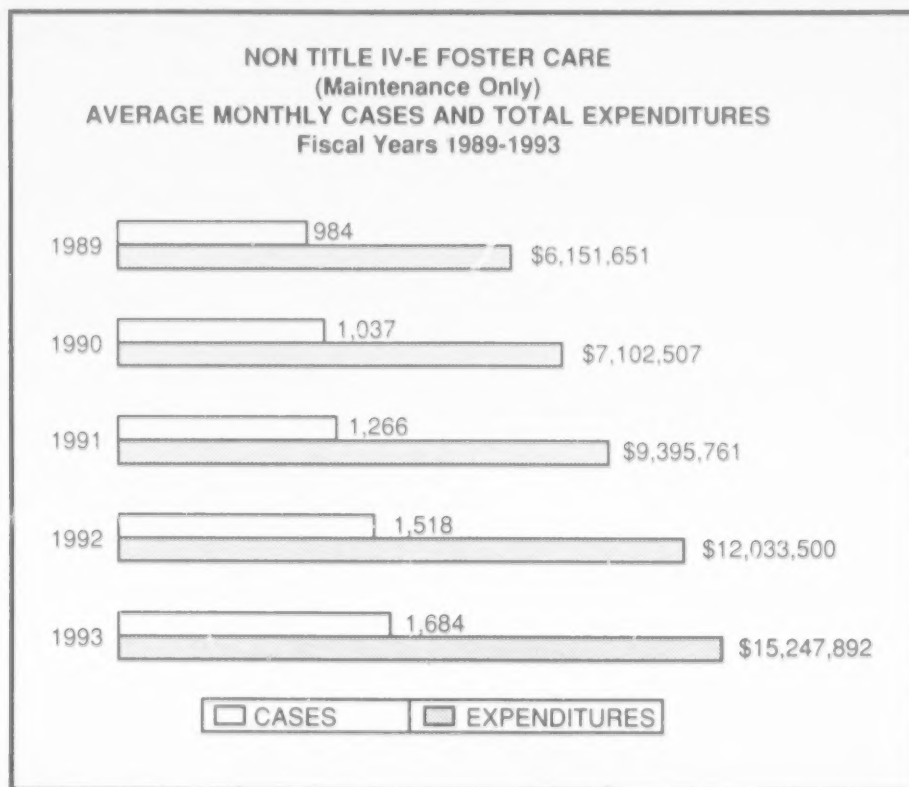

- Funding for services to children placed in out-of-home care is available from two sources. Title IV-E Foster Care is for children who would be eligible to receive ADC if they were in their parents' home. In FY 1993, maintenance payments were made on behalf of an average 1,294 children per month through this program, an increase of 94 children per month from FY 1992. The total cost of maintenance for the year was \$8,595,783, which is an average \$553.57 per child per month. This is a 17.2 percent increase in total maintenance payments and a 8.7 percent increase in average maintenance payment per child over FY 1992. Additional payments supplementing maintenance payments totalled \$39,289.
- Title IV-E payments are federal and state funded using the Medicaid and ADC matching rate.

**TITLE IV-E FOSTER CARE  
(Maintenance Only)  
AVERAGE MONTHLY CASES AND TOTAL EXPENDITURES  
(EXPENDITURES IN MILLIONS)**

- Non-Title IV-E Foster Care covers children who would not be eligible for ADC if they were living in their parents' home. Maintenance payments were made on behalf of an average of 1,684 children per month through this program, an increase of 166 children per month from FY 1992. The total cost of maintenance for the year was \$15,247,892, which is an average of \$754.55 per child per month. This is a 26.7 percent increase in maintenance payments and a 14.2 percent increase in average maintenance payment per child over FY 1992. In addition, special needs payments are made through this funding source to cover special requirements of State Wards. Additional expenditures of \$5,589,880 were made for other services, primarily, medical expenses that could not be covered by Medicaid.
- This program is funded with state monies and a limited amount of federal funds.

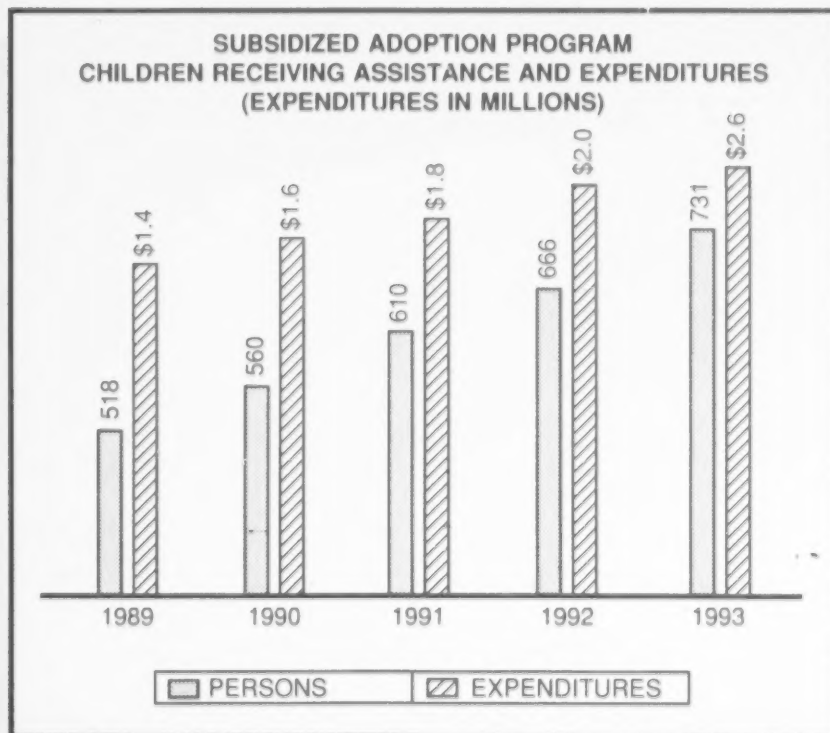

## Adoption Services and Subsidized Adoption

When it is not possible to return or maintain children with their biological families, adoption is the preferred goal. A subsidy is made available to remove barriers to adoption for children with special needs.

The Department of Social Services focuses on finding adoptive homes for children of all ages who have special needs. The children with special needs may be older; may need to be placed with one or more siblings; may be of a minority race; or may have special behavioral, emotional, or physical needs. Adoptive placements of the more traditional nature usually are made by private adoption agencies licensed by the Department.

Funding for adoptive services is available from two sources. The Title IV-E subsidized adoption program for adoptive children with special needs who are eligible and/or receiving SSI, ADC, or Title IV-E Foster Care at the time adoption proceedings were initiated. Title IV-E funds are federal and state funded using the Medicaid match rate. The state subsidized adoption program is for adoptive children with special needs who are not eligible and/or receiving SSI, ADC, or Title IV-E Foster Care at the time adoption proceedings were initiated.

- As of June 30, 1993, there were 731 children receiving assistance through the Department's subsidized adoption programs. This represents an 9.8 percent increase in children from the end of the previous year. A total of \$2,581,384 was spent during FY 1993, a 26.0 percent increase from FY 1992: \$2,449,688 for maintenance, \$100,059 for medical, and \$31,637 for miscellaneous costs. (Medicaid is a primary source of coverage for the medical costs for children in this program. Medicaid costs are not reflected in the \$100,059 listed above.)
- These services are supported by state and federal funds.

## Education of State Wards

The Nebraska Legislature appropriates funds to assist school districts in providing educational programs to youth who are wards of the state or any court. Public school districts are reimbursed for regular education, special education, and education-related transportation when the ward is not in his/her resident school district and does not reside in a foster family home. Educational Services Units (ESU) and approved institutions are reimbursed for special education for all wards residing in their facility. This program is administered by the Department of Social Services.

- Program expenditures for FY 1993 totalled \$4,556,146 in state general funds, a decrease of 12.0 percent from FY 1992.
- This program is funded entirely by state monies.

## Licensing

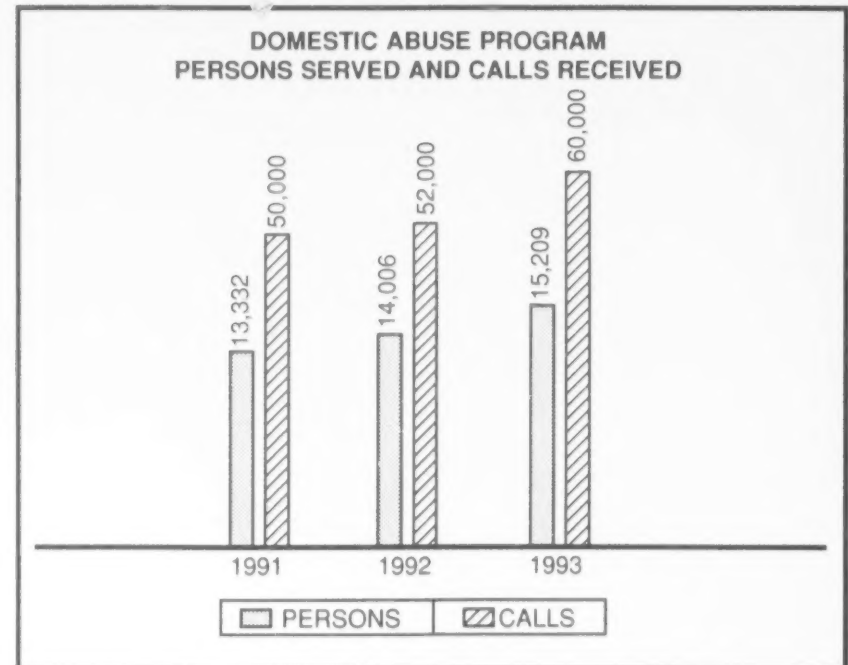

The Department is responsible for licensing child care homes, group child care homes, child care centers, preschools, foster homes, group homes, child caring agencies, and child placing agencies.

- The table on page 59 presents the number of each type of facility that was licensed as of June 30, 1993.

## Domestic Abuse Program

The Department funds 24 community-based groups which offer services to victims of domestic abuse and/or sexual assault and their families. The services provided include: a 24-hour crisis hot line, shelter, transportation, medical and legal referral, crisis counseling, emergency financial aid, and assistance in completing protection orders. Community groups use shelters, hotels, motels, and homes as safe havens for victims and their children. These groups provide community education and training, so the dangers of domestic violence and sexual assault are better understood.

- In FY 1993, funding available through the state's Protection from Domestic Abuse Act was \$768,000. Funding through the federal Health Prevention Block Grant was \$39,445. An additional \$187,780 was spent on behalf of domestic violence projects which qualified for federal emergency assistance funds.
- Services were provided to 15,209 persons in FY 1993, an increase of 8.6 percent over FY 1992. Over 60,000 calls were received on the 24-hour crisis line in FY 1993.

---

## COMMUNITY SERVICES PROGRAM

Nebraska's Community Services Program, which is administered by the Department of Social Services, contracts with 9 Community Action Agencies (CAA) to serve low-income families and individuals in Nebraska's 93 counties. The goal of the Community Services Program and CAA agencies is to help the disadvantaged move out of poverty and achieve self-sufficiency. Many CAA agencies administer the following programs: Low-Income Home Energy Assistance Program (LIHEAP), Weatherization, Head Start, Maternal Health, food pantries, programs for the elderly, Housing Assistance, Federal Emergency Management Agency (FEMA), Emergency Services for the Homeless, Job Skill and Placement, Community and Economic Development, etc.

- In FY 1993, \$2,638,812 in Community Services Block Grant (CSBG) funds were made available to Nebraska through the Office of Community Services, which is located in the U.S. Department of Health and Human Services. The CSBG law allows 5 percent of these funds for state administration and 5 percent for discretionary projects. It requires that the remaining 90 percent go to CAA agencies.

The Community Services Program also administers the Emergency Shelter Grant Program, provided under the Stewart B. McKinney Act. The Community Services Program contracts with local city and county governments which in turn contract with local nonprofit organizations to assist homeless families and individuals with funds provided to Nebraska under the McKinney Act.

- In FY 1993, Nebraska received additional federal funds for the homeless. These funds included \$202,000 through the McKinney Act from the U.S. Department of Housing and Urban Development and \$174,000 through the Emergency Homeless Community Services from the U.S. Department of Health and Human Services.
- The Community Services Program is entirely funded by federal monies.

## AGED AND DISABLED SERVICES

### Title XX Philosophy and Description

The Title XX Program is designed to assist clients to attain or maintain their capability for self-support, self-care, and personal independence.

The Department has developed a network of services that can be purchased from providers statewide. Title XX is built on the premise that local social service workers can identify needs and develop community resources to meet those needs through the Department contracts with individuals and agency providers to serve eligible clients. Title XX contracts with individuals and agencies to serve eligible clients.

---

## Title XX Adult Services

With the assistance of services purchased by Title XX, many elderly persons or adults who are disabled can continue living relatively healthy, independent lives in their own homes.

The services made available are chore services, homemaker services, home-delivered and congregate meals, transportation, adult day care, and respite care.

Chore services include such tasks as housework, laundry, meal preparation and assistance with bathing and dressing. To be eligible, persons must be unable to perform certain necessary tasks for themselves, they must have no one else who can perform these tasks for them, and they must be able to maintain a greater independence if these tasks are performed for them.

Home-delivered and congregate meals allow a person to have a prepared meal delivered to their home every day or to dine in a central place where meals are served to a group.

Transportation may be provided to persons who have no access to a vehicle or who are unable to drive in order for them to obtain medical services or to travel to and from community services.

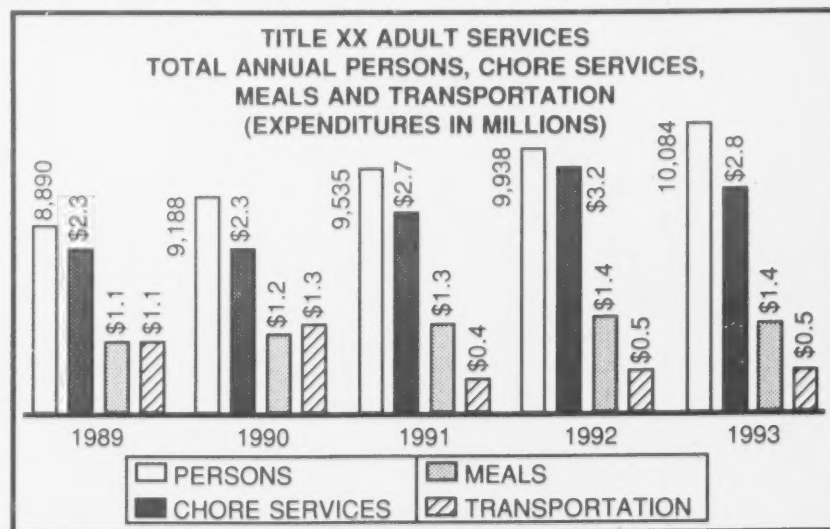

Homemaker services provide instruction in areas such as meal preparation, budgeting, personal hygiene, and housekeeping. If homemaker services can help elderly persons or adults with disabilities maintain their independence, they may receive them for up to six months.

Adult day care provides activities for and supervision of adults unable to care for themselves full-time. Usually, these adults are able to care for themselves some of the time, or they may have family members care for them part-time. This care is designed to prevent elderly persons or adults with disabilities from being isolated and, in many cases, from being institutionalized.

Respite care is similar in purpose to adult day care. There are instances where elderly persons or adults with disabilities are being cared for in a home by relatives or other persons. Respite care is designed to provide occasional relief to the caregiver from the responsibilities of constant care.

- In FY 1993, Title XX services were purchased for 10,084 elderly persons and adults with disabilities at a cost of \$6,520,338. Over the last fiscal year, the number of persons served increased 1.5 percent and there was a 0.6 percent increase in expenditures. Of this amount, \$2,815,742 was spent on chore services for 4,875 persons, \$1,339,613 on meals for 3,765 persons, and \$477,416 on transportation for 6,338 persons.

- These services are funded by a federal block grant, which is supplemented by state general funds.

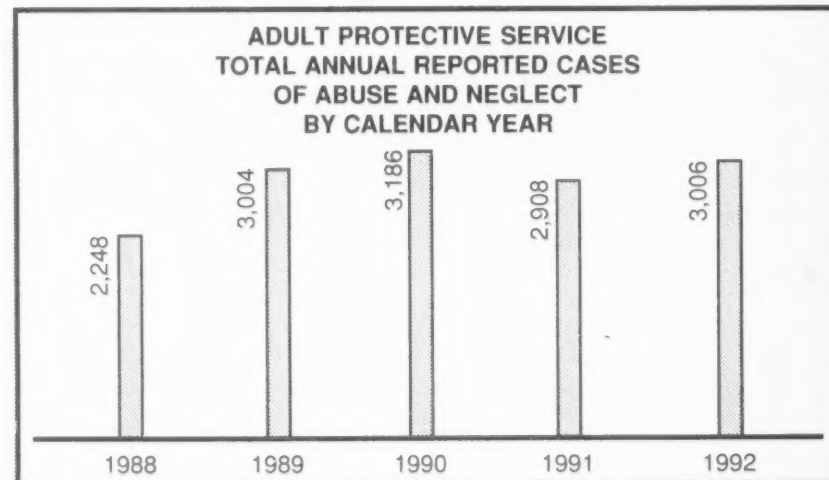

## Adult Protective Services

Adult Protective Services' mission is to prevent or remedy neglect, abuse, or exploitation of elderly persons and adults with disabilities. The most commonly reported problems are of persons needing medical care; living in unsafe or unsanitary housing; being financially exploited; lacking in food, clothing, or shelter; or adults with disabilities being left unattended.

Throughout the state, protective services workers investigate reports and determine what services are necessary to alleviate or prevent further abuse. Workers help families arrange for the provision of services, and they monitor the case to ensure that the situation improves. If needed, workers will coordinate with law enforcement authorities to obtain emergency intervention or with an attorney to initiate legal proceedings to protect the vulnerable person from further abuse or neglect.

In calendar year 1992, there were over 3,006 reported cases of abuse or neglect. This is an increase of 3.4 percent over calendar year 1991.

## Disabled Person and Family Support Program

This program covers expenses for persons with disabilities (employed or unemployed) and for families who care for relatives with disabilities. Expenses related to a disability may be covered because it may insure that a person can continue to work and still meet their needs with a limited income. Or, some families are unable to care for a disabled relative because of extensive nonmedical needs. The Disabled Person and Family Support Program covers a wide range of expenses including architectural modifications, the purchase of special equipment, attendant care, and the payment of nonmedical costs incurred during treatment.

- In FY 1993, 416 persons received \$468,546 worth of services. This is a decrease of 4.8 percent in persons served and a 7.7 percent decrease in expenditures over FY 1992.
- This program is funded by state general funds.

## Medicaid Community - Based Waivers

Medicaid waivers are federally permitted options within the program that allow states to purchase (with federal matching funds) alternative community services. Nebraska's waivers have allowed us to develop and purchase alternatives to institutionalized care (for example, nursing home services). Implementing these waivers is integral to the Department's family-centered, community-based philosophy: we can prevent institutionalization for some of our customers by serving them in their homes. Also, these waivers allow the Department to maximize federal funds.

### WAIVERS AND TARGETED CASE MANAGEMENT FOR PERSONS WITH DEVELOPMENTAL DISABILITIES AND RELATED CONDITIONS

The Department administers two Medicaid waivers and a Medicaid funded targeted case management program which provide support services for persons with mental retardation and other developmental disabilities. The Medicaid Waiver for Adults with Mental Retardation and Related Conditions funds habilitative services in communities for individuals who would otherwise require institutional services.

- In FY 1993, 692 average monthly individuals received services under the waiver at a cost of \$23,015,305. This is a 2 percent decrease in average monthly persons, and the cost is approximately the same FY 1992.

A model Medicaid waiver for children provides an array of in-home supports or community placement for up to 200 Nebraska children with developmental disabilities

- The FY 1993 expenditures for this waiver totaled \$3,028,089.

In 1987, Nebraska's state Medicaid plan was amended to allow persons over age 18 with mental retardation to be eligible for targeted case management services. Because of this amendment Medicaid funding can be provided to mental retardation regional community based programs for case management. In 1992, the plan was again amended to allow persons with developmental disabilities to be eligible for targeted case management services provided by the Department of Public Institutions.

- In FY 1993, this service was received by 1,693 average monthly individuals at an annual cost of \$3,308,084.

### AGED AND DISABLED MEDICAID WAIVER

The Aged and Disabled Waiver, an option provided through the Medicaid Program, allows clients with care needs to choose in-home support services as an alternative to institutionalization. If a needs assessment determines a person requires nursing facility care, then, under the provisions of this waiver, she/he may be eligible for in-home support services if she/he can be safely served at home at a cost not more than Medicaid would pay for nursing home care. Medicaid services available under this waiver are: chore services (for example, housekeeping, meal preparation, etc.), adult day health care, day care for children with disabilities, independent living skills, respite care, and transportation.

- In FY1993, expenditures for waiver services totalled \$3,112,649.
-

---

## CHILD CARE AND DEVELOPMENT

Because many of Nebraska's low-income families cannot afford child care, the Department of Social Services helps by paying child care providers. Low-income families fall into several categories: They range from parents who are unable to care for their children because they are fulfilling their Job Support requirements to parents whose income slightly exceeds the Aid to Dependent Children (ADC) standards. These latter parents are eligible to receive child care assistance on a co-pay fee schedule.

If Child Care Providers care for four or more children from different families, they must be licensed. Otherwise, providers should be approved by the Department.

Child Care and Development Block Grant (CCDBG) monies are available to qualified providers to upgrade their facility. Such improvements could include a fire protection system and other safety equipment.

Despite having a variety of funding sources, Nebraska's child care programs operates as a "seamless" system. That is, there is only one set of guidelines for eligibility, benefits and payments regardless of funding source.

- Nebraska's Child Care and Development Program spent a total of \$22,033,597 in FY 1993 and served an average of 9,662 children per month. This is an increase of 45% in dollars spent and 22% in children served over FY 1992.
  - This program is funded with state general funds and federal funds. Federal funds are available thru Title IV-A at the Medicaid match rate of 62% federal and 38% state and the Child Care and Development Block Grant (CCDBG).

# *Agency Administration*

---

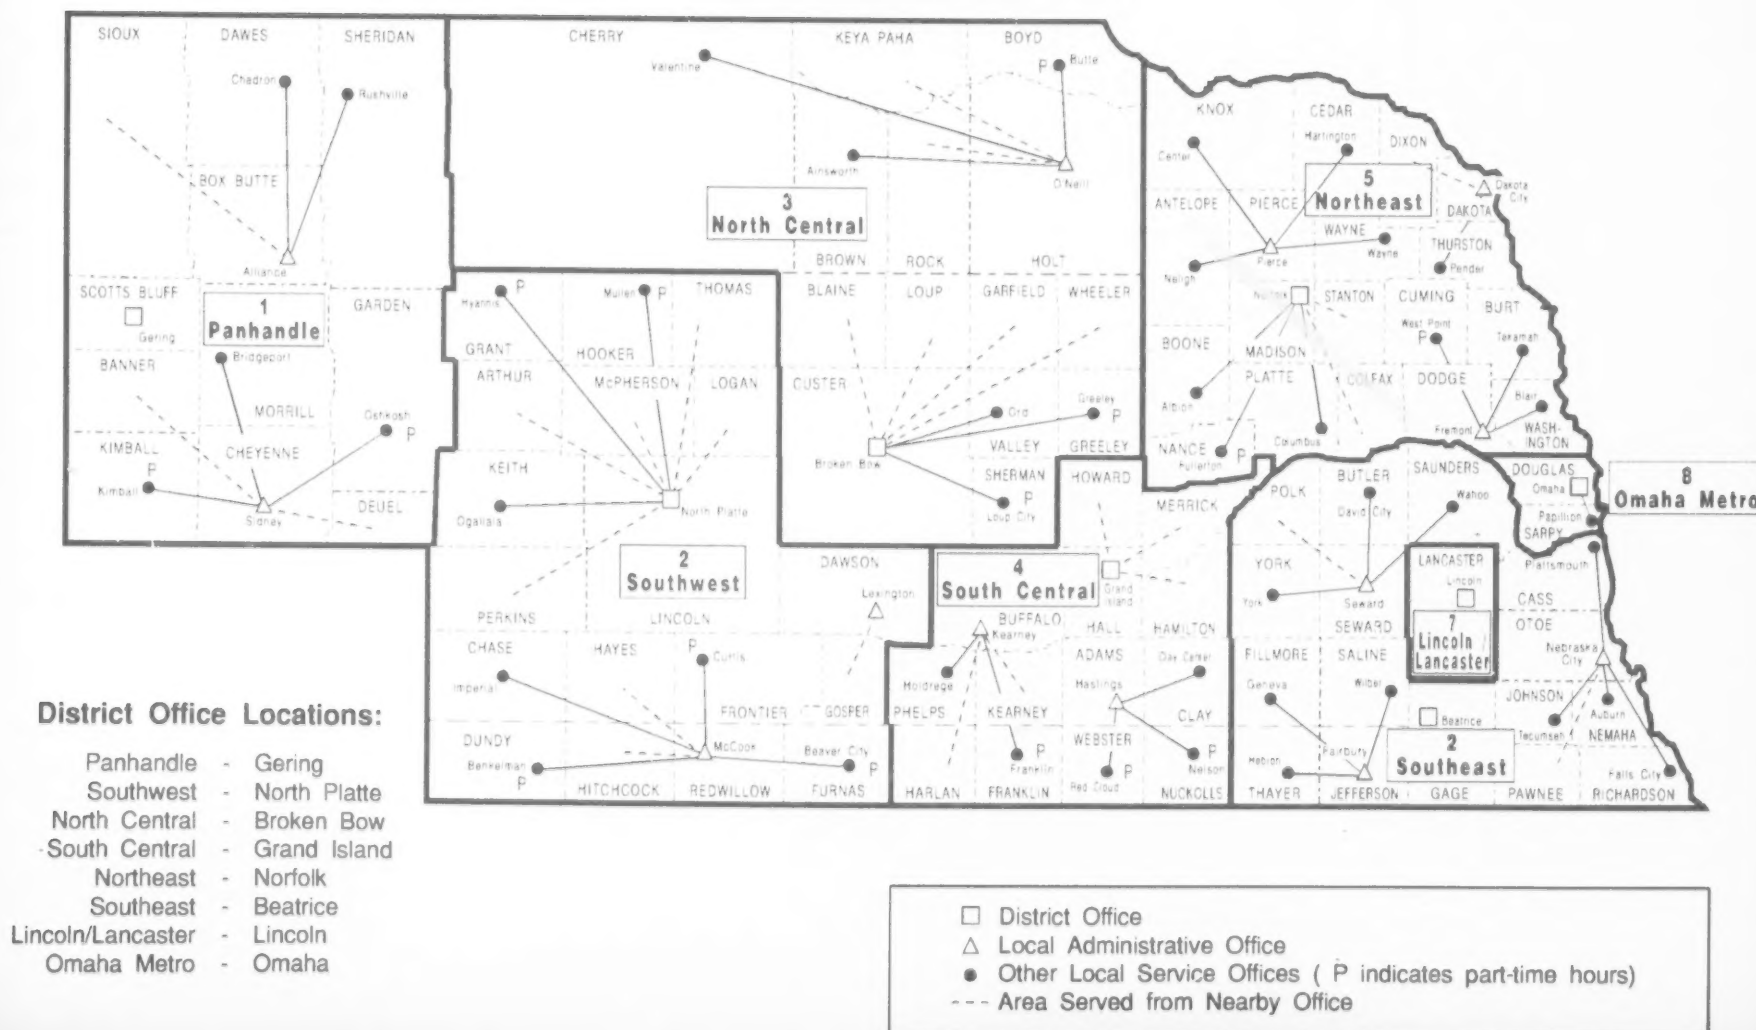

# Nebraska Department of Social Service - ORGANIZATION STRUCTURE

# NEBRASKA DEPARTMENT OF SOCIAL SERVICES CLIENT SERVICES DELIVERY SYSTEM SOCIAL SERVICES DISTRICTS

APRIL, 1993

## ADMINISTRATION

The Nebraska Department of Social Services is an executive agency. Its Director is appointed by the Governor and approved by the Legislature. Currently, while under going reorganization, the Department is divided into Operations (which includes Administrative Services, Research and Finance and Program Evaluation and Review), Programs (which includes Public Assistance, Human Services, Enforcement Services, etc.), Medical Services and Client Services Delivery (See Organization Chart). Operations, Programs and Medical Services are located in the central office in Lincoln. Client Services Delivery is divided into eight geographical districts in which services are made available to eligible clients across the state.

The deputy Directors for Operations and Programs and Administration of Medical Services report directly to the Director of the Department. The District Administrators, who manage the eight districts, report directly to the Deputy Directors for Programs.

## DIRECTOR'S OFFICE

The Director reports directly to the Governor and administers the Department as provided by the law. The Director is supported by Legal Services, Human Resources and Public Information.

## CLIENT SERVICES DELIVERY

The Client Services Delivery Division is responsible for the provision of the full range of the Department services on a statewide basis. There are 1,536 staff located in 61 full-time office sites which are organized into 22 local service areas within eight geographic social service districts of the State. Part-time services hours are provided in 15 additional locations throughout the state. (See map on page 22).

The Deputy Director for Client Services Delivery is assisted by seven staff located in the Department's central office. These staff support the operation in the statewide client service system in areas of administration planning, budgeting, policy coordination, and service improvement. Eight District admin-

istrators, one located in each social service district, supervise client service delivery staff within their respective districts.

Four major principles guide the activities of the Client Services Delivery Division:

1. Treat other staff and clients with respect and dignity.
2. Keep services fully accessible to clients.
3. Offer the full range of services on a consistent, statewide basis.
4. Respond to fluctuating service demands.

## PUBLIC ASSISTANCE AND FOOD PROGRAMS

The Division of Public Assistance and Food Programs is divided into three units: Public Assistance A, Public Assistance B, and Food Programs.

Because of the large number and diversity of programs, Public Assistance is divided into two groups. Both groups are responsible for project planning and policy development and interpretation.

Public Assistance A includes the following programs: Aid to Dependent Children; Aid to the Aged, Blind, and Disabled; Medicaid Eligibility; Low-Income Energy Assistance; and State Disability.

Public Assistance B consists of the following programs: Job Support, Refugee Assistance, Emergency Assistance, Foster Care Income Maintenance, and Income Maintenance training for local office staff.

The Food Program unit is responsible for policy direction in the following programs: Food Stamps, Food Distribution, and the Special Distribution Program. In addition to these responsibilities, this unit directly administers the distribution of commodities to Nebraska's schools and other recipient agencies (such as pantries, food banks, soup kitchens, etc.) participating in the Food Distribution Program.

---

## HUMAN SERVICES DIVISION

---

The Human Services Division is composed of four units: Family and Child Welfare, Family Support Services, Permanency Plan Review, and Foster and Residential Care Licensing.

Family and Child Welfare plans, develops, implements, and monitors programs and policies of services for families and children. These services include Child Protective Services, Alternate Care, Reunification, In-Home Services, Adoption, Independent Living Skills, educational funds for state wards, the Interstate Compact on placement of children, Subsidized Adoption, and general counseling for former wards.

Family Support Services plans, develops, implements, and monitors programs and policies of support services for families. These services include Child Care, Homemaker and Transportation Services for low-income families, Domestic Violence Services contracted through community projects, Community Action Agency services. This unit also plans, develops, conducts, or contracts for the provision of training for staff, foster parents, and other providers who implement or support delivery of human services programs.

Permanency Plan Review fulfills a federal requirement through monitoring and evaluating, on a regular basis, the appropriateness of the current foster care placement and permanency plan for each child in the Department's custody placed in out-of-home care.

Licensing carries out the Department's responsibility for monitoring and regulating the provision of family foster care, residential care and placement of children by agencies.

---

## MEDICAL SERVICES DIVISION

---

The Medical Services division includes two major units: Medical Programs and Operations.

The Medical Programs Unit is responsible for policy formulation, provider relations, training providers and local office staff, and approving and/or monitoring all payments. The Medicaid services monitored by this unit include

those provided by hospitals, physicians, dentists, other medical practitioners, the providers of durable medical equipment and supplies, ambulance services, and preventive health care screening for children (known as HEALTHCHECK).

This unit is also responsible for mental health services offered by physicians, institutions, and allied mental health professionals. Also, this unit supervises the provision of medical services to state wards.

The Medicaid Drug Program staff develop and implement policy, train providers and staff, and monitor the program for abuse and overutilization. A systems component monitors clients' medical treatment profiles for possible abuse.

The Operations Unit administers the following functions:

The Surveillance and Utilization Review (SUR) section of this unit is responsible for the SUR subsystem of the Medicaid Management Information System (MMIS). SUR provides comprehensive health care delivery and utilization data for program management. In addition, it monitors the patterns of practice by providers and the patterns of utilization by clients for possible abuse or fraud. If a situation with criminal intent arises, the case is referred to the appropriate law enforcement authorities.

The Operations Unit is also responsible for the annual System Performance Review (SPR), which insures the documented use of the subsystem meets federal requirements. The unit is also responsible for the Claims Processing Assessment System (CPAS), which samples cases for eligibility and claims processing errors.

The Long-Term Care section is responsible for Medicaid clients in long-term care facilities (nursing homes) and for in-home services for Medicaid eligible clients. This section is accountable for the administration and enforcement of all federal regulations relating to long-term care facilities.

---

## SPECIAL SERVICES DIVISION

---

The Special Services for Children and Adults Division plans, develops, implements, coordinates, and monitors purchased and staff provided services funded by the Social Services Block Grant for adults who are aged or have disabilities.

---

This Division is responsible for four Medicaid home- and community-based waivers. One waiver provides services to adults with developmental disabilities, another provides services to aged persons and adults and children with disabilities, and another is for children with mental retardation and other developmental disabilities. The latest waiver is designed for infants and toddlers with special health needs. Demonstration sites are located in Omaha and Scottsbluff. Eight Disability Service Specialists are located throughout the state to determine waiver program eligibility and provide consultation and technical assistance to local offices and community agencies. Also, this division is responsible for targeted case management under Medicaid.

The Disabled Persons and Family Support Program, receives applications from adults and children with disabilities for fill the "gap" services administered by this division.

The program staff develop and implement rules and regulations for adult family homes, as well as monitor them.

The Medically Handicapped Children's Program (MHCP) provides a multi-disciplinary family-centered approach to medical evaluation and specialized medical care for children with certain disabilities that pose a financial hardship to their families. The objectives of this program include the timely identification of medical needs, coordination specialized of medical resources, provision of appropriate services, and referral services to communities.

---

## ENFORCEMENT SERVICES DIVISION

---

The Enforcement Services Division is responsible for administration of the Title IV-D Child Support Enforcement Program.

Child Support Enforcement assists individuals, courts, and prosecutors in the location of absent parents, the establishment of paternity, and the establishment and enforcement of support obligations owed by absent parents to minor children. Projects with specialized state staff serve 17 Nebraska counties in child support enforcement. Computer matches of absent parent information made with the Internal Revenue Service and the state Revenue and Labor

Departments enable income tax refunds and unemployment benefits to be intercepted for delinquent child support obligations. Efforts to increase child support collections center on: automatic income withholding of employment income from individuals with court-ordered child support obligations; Electronic Funds Transfer (EFT) for the payment of support, including automatic payments from bank or savings accounts to courts and tele-transfer support payments; and an expanded use of automated data for parent location and paternity establishment.

---

## ADMINISTRATIVE SERVICES DIVISION

---

This division consists of three units: Client Payments and Claim Processing, Administrative Support, and Information Systems.

Client Payments and Claims Processing is responsible for processing most automated payments. Payments are processed for the following programs: Medicaid, Aid to Dependent Children, State Supplement, State Disability, Foster Care, Social Services, Child Support Enforcement, Low-Income Energy Assistance, and all other data entry as required. The majority of this Unit's efforts goes into processing medical claims.

Administrative Support is responsible for providing supportive services in the areas of graphics/form design, purchasing, mail services, records management, facility services, word processing, manual review, coordination and issuance of departmental policy, inventory, and office systems support.

Information Systems administers the Department's computer resources. This unit provides support in such areas as feasibility studies; system design and development; system maintenance; equipment acquisition, installation, and maintenance; and system project management. Other responsibilities are as follows: developing the Department's data processing budget, monitoring data processing expenditures, and representing the Department in the data processing area with other public and private entities.

---

---

## RESEARCH AND FINANCE DIVISION

---

The division consists of three units: the Long-Term Care Audit Unit, the Finance and Accounting Unit, and the Research and Statistics Unit.

The Long-Term Care Audit Unit examines nursing home facility costs to ensure that the costs, which are the basis for nursing facility rates, are reported by the nursing facility in accordance with program regulations.

Initial cost audits are done in-house for all 230 nursing facilities that participate in the Medicaid Program. The Audit Unit uses the in-house audits to establish facility rates. Between 20 and 30 audits are done on-site at nursing facilities each year. The unit's activity is the major controlling factor over long-term care expenditures.

The Finance and Accounting Unit is responsible for managing the Department's accounting system. This includes accurate coding of expenditures to appropriate accounts to insure the expenditures meet state and federal regulations, laws, and acceptable accounting standards.

Management of federal and general fund accounts, to insure adequate fund balances are available when required, is a responsibility of the Finance and Accounting Unit. This unit processes all expense vouchers from Department staff, calculates hospital prospective payment rates based on submitted cost reports, and handles the financial accounts of children who are state wards.

The Unit is responsible for all financial reporting required by federal agencies and for insuring required federal audits are carried out. The State Ward Education Program is administered by this Unit.

In addition, this unit handles the financial/accounting functions for the Child Support Enforcement Program, including distribution of collections to reimburse ADC program expenditures, payment of incentives to counties for the Child Support related functions they handle, and returning funds to the federal government for the federal share of ADC expenditures.

The Research and Statistics Unit is responsible for compiling and submitting some 176 required federal reports each year. The unit publishes the

Department's Annual Report, as required by state law. Fiscal notes on legislation which may have some impact on the Department's customers or programs are prepared and submitted by this unit. Budget preparation, coordination, and submission are also responsibilities of this unit. Monitoring program and administrative expenditures throughout the year and providing this information to the Director and appropriate administrators for management purposes is also a function of the Research Unit.

The Research and Statistics Unit is responsible for developing and maintaining federally approved sampling plans and computer sample selection programs for the Food Stamp, ADC, and Medicaid Quality Control Programs. Sample cases are selected each month and reviewed for accuracy by the Quality Control Unit. Reports analyzing the information collected are sent to appropriate federal agencies.

Special research studies, reports, and speeches are completed by the unit, and responses are provided for many inquiries from the Legislature and general public regarding Department programs.

---

## LEGAL SERVICES DIVISION

---

The Legal Services Division has responsibility for all the legal matters of the Department. Staff attorneys provide legal advice and service to all of the Department's districts and divisions. These services involve interpreting federal law and federal regulations, state statutes, and the administrative rules and regulations of the Department. Additionally, this division assists in drafting contracts, regulations, and legislation. Also, the attorneys assist the Attorney General's Office with litigation involving the Department.

The Legal Services Division conducts hearings for applicants and recipients who appeal decisions made regarding benefits. Hearings are conducted for providers of medical services who appeal rate computations or subsequent audit adjustments. Additionally, appeal hearings are conducted for persons who appeal decisions made regarding their entitlement to licenses in these categories administered by the Department including child care, foster care, child-placing agencies, group homes, and day care homes. Hearings are conducted regarding suspected cases of food stamp fraud. Hearings are also conducted in relation to child support income withholding and tax intercept matters.

---

The division's Special Investigative Unit has primary responsibility for investigating cases of suspected client fraud or program abuse. Department attorneys assist in the investigation and preparation of fraud cases for prosecution by county attorneys. When possible, they seek civil recoupment of overpayments where feasible.

The Child Welfare Unit which is staffed by three attorneys, was "carved out" of the Legal Services Division in response to the level of legal assistance that the local offices needed in dealing with issues related to the care of state wards. The Unit's primary responsibility is to respond to requests for assistance from Protective Services staff. Our duties include: creating and delivering training on related legal issues to Protective Service staff; making appearances in court on behalf of the Department; giving advice on policy and statutory interpretations for Local and Central Office staff; serving on internal and external task forces related to Child Welfare issues; handling the litigation of juvenile cases when the county attorney is unable/unwilling to do so; representing the Department in administrative hearings related to expungement of the Central Registry; etc. This year the members of the Unit were appointed Special Assistant Attorneys General by Attorney General Stenberg. A secondary focus has been to develop new, or improve existing, relationships between the Department and members of the legal community involved in child welfare matters. We have primarily attempted to do this on a one-to-one basis, meeting with attorneys and judges individually, as well as working with these individuals on planning committees and task forces.

A Child Support Enforcement Unit also operates within the Legal Division. Designated attorneys, along with support and program staff, handle direct child support enforcement and paternity establishment. Projects are located in Omaha, Fremont, Norfolk, and Hastings.

The attorneys assist in the promulgation of regulations in order to insure that the requirements of the Administrative Procedures Act and any federal requirements are met. A child support enforcement component operates within this division under a contract with the Attorney General's Office. These attorneys do direct child support enforcement and paternity establishment work exclusively. Two of them are located in Omaha and the others work in Fremont, Norfolk, and Hastings.

---

## CHILD CARE AND DEVELOPMENT DIVISION

---

The Child Care and Development Division has the responsibility for the development, administration, and coordination of policies, programs, procedures, and services which impact on the quality of early care and education services in Nebraska. These responsibilities include:

- licensing, monitoring, and investigating complaints regarding early care and education programs and services in home-based, center-based, and school-based settings;
- providing consultation and technical assistance to persons providing early care and education services, including assisting them in accessing grants, training opportunities, support groups, and other local and statewide resources;
- working in concert with public and private agencies and individuals in identifying, assessing, developing, and implementing early care and education services in local communities; and
- administering the initiatives established through the federal Child Care and Development Block Grant Act and Nebraska Quality Child Care Act.

---

## THE NEBRASKA CENTER FOR CHILDREN AND YOUTH

---

In January of 1993, the Departments of Social Services and Public Institutions integrated the Nebraska Center for Children and Youth (NCCY), a residential care and treatment program in Lincoln, and the Department of Public Institutions (DPI), Adolescent Care Unit at the Lincoln Regional Center. The new program is called the Adolescent and Family Service Program. As did the programs at NCCY, it will serve youth who are severely emotionally disturbed and their families. DPI will now administer the new program.

---

## VOLUNTEERS

---

Currently, the Nebraska Department of Social Services has over 2,000 volunteers working with the Department, in the area, in clerical support, client support, and in the distribution of food commodities across the state.

In the fiscal year ending June, 1993, individuals volunteered 87,479 hours of services. It is estimated that the monetary benefit to the Department equals \$568,613 (average wage plus benefits). In addition, volunteer donations of cash, goods, and services totaled \$243,341. These two totals provided an overall benefit to the Department of \$811,954.

In comparison to FY 1992, this shows a decrease of volunteers (300), an increase of 4,289 volunteer hours (\$27,878), a decrease of \$16,713 in volunteer donations of cash, good, and services for an overall increase of \$11,165 in calculated benefits to the Department.

\*Expenditures are total dollars paid for the year. Persons are average monthly unduplicated recipients. Within a month, a person is counted only once regardless of the number of times the service is utilized and counted only once in the total regardless of the number of different services received.

\*\*Less than one average monthly person.

\*\*\*Includes community based Mental Health Clinics, Ambulatory Surgical Centers and Day Treatment Services. (Physician Clinics are reported under Physician Services).
